**9th International Conference on  
Mathematical Models &  
Computational Techniques in  
Science & Engineering  
Athens, Greece, January 17-19, 2025.**

<https://springer.mmctse.org/>

All accepted papers will be published by Springer Nature

(<https://www.springernature.com/>) in the book series: "Communications in

Computer and Information Science" and they will be indexed in the ISI Clarivate Analytics' Web of Science, Scopus, EI Engineering Index, Google Scholar, ACM, CNKI, Scilit, DBLP, EBSCO, ProQuest and others. Paper with an additional review by one more reviewer can be published in various Scopus Indexed Journals (also indexed in Google Scholar, ACM, CNKI, Scilit, DBLP, EBSCO, ProQuest and others).

A Third option, if the authors cannot catch the high standards of our Springer Verlag Book and our Scopus Indexed Journals is a Volume of AIP (with ENCEMA 2024) or IEEE Proceedings. The AIP Proceeding or IEEE Proceedings will publish the articles that Springer Verlag or our Journals indexed in Scopus cannot accept, but they still fulfil a minimum quality level for the conference. The AIP Proceedings and IEEE Proceedings participate in the indexes: ISI Clarivate Analytics' Web of Science, Scopus, EI Engineering Index, Google Scholar, ACM, CNKI, Scilit, DBLP, EBSCO, ProQuest and others.

**Many Thanks**

**Carmen Laurent**
